FOR IMMEDIATE RELEASE

Coil announces new additions to its team

COLUMBIA, MO (October 12, 2021) – Coil Construction is pleased to announce new additions to its team.

Kevin Harvey joined the Coil team as a senior project manager. He holds a bachelor's degree in civil engineering technology from Lincoln University. Kevin's responsibilities at Coil include managing projects and using his site and utilities experience to help the team.

Adam Rose joined Coil Construction as a project engineer. Adam holds a bachelor's degree in mechanical engineering from the University of Missouri-Columbia. As a part of Coil's regional operations team, Adam's role includes assisting with the city permitting process and helping with project subcontractors and bids.

Greg Chillion joined the Coil team as a project manager. Greg spent five years in the United States Navy as a staff intelligence analyst. At Coil, Greg's project manager duties include working on estimates and assisting project managers on larger projects to get things off the ground.

Jordan Grisham joined the Coil team as a project manager working on regional operations. His responsibilities include field support for the team during all stages of the construction process, from pre-planning and permitting to scheduling. He also handles any warranty work after a project is completed.

Established in 1975, Coil Construction specializes in institutional, retail, professional, industrial, and healthcare construction throughout the Midwest, with an emphasis on commercial construction projects in Missouri.
